## 4th of July Parade — Templeton

This year the club again entered the Templeton 4th of July Parade. Nate L. took the lead on organizing, getting the paperwork in and advertising the event to the club. Several of us showed up at the donut shop at 8:00 AM and once the table opened, we got our entry number and headed to our staging area. This year we were number 58 (each year the number seems to go up a little, but we were in the same staging area we had been in for years.

We parked and started adding flags, ribbons and other decorations. As usual, they gave us less space than we needed, but we made do parking two rigs deep. As more rigs showed up we did what we could to keep from spilling over into other entries areas.

One entry showed up that was the entry right before us in order and they had only given him a less than 8 foot wide space from a crew cab truck with a long flat bed. We decided that if he didn't mind us using his spot, we would let him park tight up against the front of our rigs. The down side

to this was it did make it harder to watch the parade that preceded us.

Participating members this year included Nate, Devin and their girls, Dan H., Eric F. and Alison E., Phil B and his wife Angellica, Steve and Faith R, Casey and Loree M, Matt Nichols, his wife and child, Dennis V. and Debbie R., Zack S. and myself..

The parade got going as we made our final adjustments and gabbed with each other. It was a nice cool morning, not normal for the 4th in Templeton, but more than

# Move Club Ramp and TV Tower Road

*Written and Photos by George W, Editor*

On April 29th several members went to the previous president's home to retrieve the club ramp and move it to another members place. Dan H provided his truck and flatbed trailer as the means to move it. We met down behind Car's Jr. in Atascadero and headed out to where the ramp was.

The group included Dan H, Daniel U and his son and son's friend, Hillery B. and Dennis V. We loaded the ramp up and strapped it down and then headed out to south Atascadero. We unloaded in the back field and low and behold, several of the newer members wanted to try it.

Dennis went first with his big red CJ; he got as far as his rear tire almost touching the end of the ramp, not bad. Daniel went next in his red Chevy and stopped when his fan started tinging against the radiator. Hillery went next, but with his stiffer suspension, a tire got real light and started spinning.

With that done, we decided to drop Dan's trailer at my place and then meet at the Santa Margarita Park and Ride and then head up to the Grade and TV Tower Road.

Once we got to TV Tower Road, we decided to drive non-stop so we had enough time to go to the end. We got to Tasajerra Peak and found the gate closed and locked to the remainder of the road that lead to the grove three miles away.

Plans changed and we went up to the top of Tasajerra Peak, got a great view from up there, and then headed back. Part way back Dennis said he knew where we could get our rigs down to a mine, so we turned off the road and headed down this fairly mild trail that

led to an open pit Chromium Mine. Great view, nice little mine, and a potential optional trail out for another day.

We then made out way back out the way we came in and went a little further down the road when I spotted another foot trail to another mine. Other's had to leave so Daniel and I and our passengers dis-

mounted and headed down the trail. There were actually two pit mines there and both had been turned into a night party area. After a little exploring, we returned to our rigs and drove home.

(Continued from page 1)

welcome. Finally the entry numbers caught up to us and we were away.

The parade has followed the same route for years. This year we didn't get much direction from the usual guy; he was riding in the parade this year, so we kept single file until we got near the park where the road opened up wide enough to be in two columns without worrying about hitting each other or running over some kid who wandered onto the pavement.

The route moved relatively smoothly this year and with the exception of one spot by the field at the school; there were not many water guns either. We finally turned north on Main Street and were on the home stretch.

Where we got to our staging area, we pulled over and started tearing off all the stuff we had put on earlier. While we did, we gabbed with each other and began to bid our farewells to Dennis and Debbie as they would not be at the next meeting and we would probably not see them before they left for their new home back east. He was still promising a few newsletter articles for me as we shook hands and said our good-byes.

At that point, each of us headed in different directions to other 4th activities that we had commitments taking with us fond memories of the day and the fun we had had as a group.

Over all we had a lot of fun, the weather was great, the companionship was great, the parade has always been fun except for the rules. The rules are not as bad as the San Luis Obispo Christmas parade, but a lot more restrictions than the San Miguel Christmas parade.

Y'all come out and join us next year!

# Club Meeting Minutes:

*Meeting Minutes by Steve R, Club Secretary*

## February 7, 2018:

Meeting started: 7:00 pm

Acting President Eric: not present

George started meeting.

Eric has resigned from position, and terminated membership.

Problems with membership. Not enough people volunteering for office position. We are at a crucial turning point. Without members stepping up to fill positions, will lead to dissolving the club.

Round table discussion on current issue. Where do we take the club at this point? Do we keep a "formal club" or become an "informal group of 4x4 friends"? Is the politics causing the problem? We need the input from the members!

If a decision is made to disband the club, what do we do with the dues already collected. Suggestion to refund current dues paid for this year. If there is any excess money, donate to California 4 Wheel Drive Association.

Final decision will be made during the March meeting. Everyone's input is very important.

George:

\* Treasurer reported: \$ in checking account.

20 paid members.

Newsletter on hold until decision is made on the status of the club.

Events:

\*NO trash pick up this month.

\*April 5,6,7 Calico run (outside of Barstow). Watch the websites for details.

\*Pine Mountain Feb 17th. Time 9:00 Saturday morning Santa Margarita Park.

Dan:

\*Stickers available for new members

Unanimous decision to accept those that have accepted these positions.

Officers to have a sit down and go through by laws. What can we do to make this club fun for everyone again.

Possibly going Corporation???

Eric: High Mountain Road still closed. Agreement has been signed with CCMA and Cal-Fire to go forward with getting it opened. Questions about whether the county is willing to keep the road open in the future.

KC: Will hopefully be open within the next couple of months.

Correspondence: Air medical flight insurance. If you are interested, contact George.

Dennis: run report.

Pine mountain, 13 vehicle...good run. Picnic table could use some repair. Good volunteer project for the club. Materials could be donated. Overgrown around the base of the stairsteps.

Set up a board meeting. Need to determine a time and place.

"Suggestions for future direction of the club":

Change voting of the board to another time beside around Christmas, maybe March

Change from must have 4x4 to interested in 4x4

Members must attend at least 2 events throughout the year (meeting, runs, volunteer...etc.)

Change safety list to "recommended equipment"

Question: "why is it so important to have the bylaws and other regulations"?

Necessary to remain a club. Otherwise we just become a "group of friends".

We as a club can change some of the rules to make things more fun if we all chose to go that direction.

"do we need to discuss all the bi-laws at every meeting"?

These can be discussed during the board meetings. Then just vote on them during the general meeting.

(Continued from page 4)

Debate still remains: Do we remain a club OR do we just convert to a social group of friends.

Will be discussed during the board meeting. Special note: you do not have to be on the board to be at the board meeting. All members are welcome to show up and give input. Board meeting time, place and dates will be published on our Social Media sites.
